## SOF Sofa & Ottoman

The smoothness of the river stone embodies the power of nature. Inspired by the tenderness one feels from a round river stone in your hands, the designer, Kiyoshi Sadogawa, translated that charm into the SOF series. The design is bold and soothing, just like mother nature.

The SOF Sofa and Ottoman feature a special 50% feather and 50% silicone cotton mix cushion filling for the best comfort and shape. Cushion cover is removable for laundry or replacement. The sofa and ottoman have two width options and two seat height options available.
